NOMEX MHP by Workrite FR.

Designed for multi-hazard protection.

Nomex MHP clothing protects workers against multiple thermal hazards — including arc flash, flash fire, heat and flame, and small molten metal splatter — while maintaining comfort and durability. The inherent fabric properties of the line make for longer-lasting workwear with less shrinkage, while providing effective moisture management.

WORK in Style

Workrite FR outerwear offers protection and warmth without compromising appearance — we style our garments like street clothes, but with the functions of work clothes. With a variety of colors, fabrics and designs, this is outerwear you'll want to wear. Our zip-in liners can be seamlessly added to transform our Bomber Jacket on a cold day. Each item can also be worn on its own, depending on the day's weather.

2112 UL certified to NFPA 2112

FR WARMTH Without the Weight

Teaming up with Westex® and 3M™, Workrite FR developed a new line of insulated FR garments: 3M Thinsulate™ Platinum Insulation FR outerwear. It's 44-percent warmer than standard insulated FR workwear with modacrylic quilting systems.

Thinsulate combines comfort, functionality and protection with an FR quality and durability that stands up to cold weather conditions as well as it stands up to multiple home and industrial launderings.

THINSULATE™ FIELD COAT

- Stand-up collar with hidden snaps for an optional hood
- Heavy-duty solid brass zipper closure
- Monitor loop on left shoulder
- Adjustable snap closures on the sleeves
- Four patch pockets (including two with snap flap closures) and a pencil pocket (left sleeve)
